# TAUMONA

KITCHENS | BATHROOMS | WARDROBES

TAUMONA is a furniture manufacturing company best at producing kitchens, bathrooms, and wardrobes. The company implements a new kitchen or another project from the idea to the final result based on customers' expectations, needs, and possibilities. One of the most relevant tasks is quality assurance, that's why exceptional attention is devoted to details, materials, design, and production process management. We value all customers as business partners, and each order we fulfill as if it was for ourselves.

# FACADE COLORS / PATTERNS

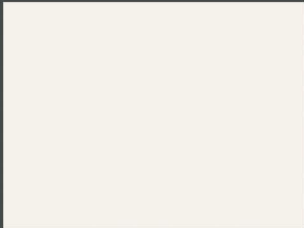

MFC panel is a common choice for its practicality: the furniture is resistant to friction, high temperature, and UV rays (does not change color) and is easy to maintain. Another aspect of the choice is the low price. In addition, a wide selection of decors and structures allows using MFC in various interior styles.

## NATURAL OAK VENEER

The tree cortex is a natural product created by nature, not man. The natural oak veneer is of high quality, has a distinctive appearance, and rich color. When the husk is cared for naturally, the variations and contrasts of the oak stand out perfectly and look like luxurious material.

# WORKTOPS

These worktops are highly stain and heat-resistant. They are easily maintained and hygienic. Their features are perfect for kitchens and bathrooms. An HPL splash-off with the same pattern can match the worktop.

## 20 mm natural wood oiled worktop

Wooden worktops are a unique accent from natural wood in your kitchen. Each countertop is exceptional because natural wood has its pattern and color characteristics. A natural wood table top is long-lasting and durable but needs to be carefully maintained. The best thing is that such worktops can be renewed and restored.

# WORKTOPS FEATURES

It is significant to consider which features are the most important to you while choosing a worktop, which will help you find the most suitable one that meets your cooking habits and needs.

# HANDLES SOLUTIONS

Cabinet doors, drawer systems - furniture without handles open with a light push with the TIP-ON mechanical opening system. For closing, simply close and press. Handleless solutions are trending and loved by people who like simple, modern-style furniture.

The extended facade solution will appeal to those looking for modern and minimalist solutions in their home. The extended front part of the furniture door facade is longer than the inner part, so no handles are needed to open the cabinet.

Kitchen handles are an essential part of any kitchen design. They provide functionality and ensure the handy opening or closing of drawers and cabinets. Handles give style to your kitchen and create character.

## ACCESSORIES

### SMART/PRIME

**SMART** - High-quality furniture mechanisms of less known brands and accessories that improve functionality, are recommended for smaller-budget projects.

**PRIME** - High-end furniture mechanisms and accessories from famous brands with various functionality-enhancing features are recommended for larger-budget projects.

### SMART

**DRAWER SYSTEM**  
soft closing mechanism, opening only with a handle, capacity up to 30 kg, colors: white, gray.

**Narrow pull-out organiser CARGO**  
soft closing mechanism, opening only with a handle, color: chrome.

**CUTLERY TRAY**  
plastic, easy to clean, colors: gray, white.

**CAROUSEL BASKET**  
system to corner unit made of chromed metal, up to 7 kg load per basket.

### PRIME

**DRAWER SYSTEM TANDEMBOX ANTARO BLUMOTION**  
soft closing mechanism, capacity up to 30 kg, opening with a handle or TIP-ON, colors: white, gray.

**Narrow pull-out organiser TANDEMBOX ANTARO SPACE TWIN**  
soft closing mechanism, capacity up to 30 kg, opening with a handle or TIP-ON, colors: white, gray.

**CUTLERY TRAY FLEX LINE**  
high-quality tray made of clear plastic and aluminum. The position of the tabs changes depending on the need. Can be washed in the dishwasher, colors: white, gray.

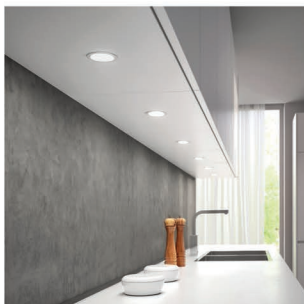

**SYSTEM TO CORNER UNIT LEMANS**  
stylish and practical solution. Capacity up to 20 kg.

**PULL-OUT  
WARDROBE  
DRAWER**  
soft closing  
mechanism,  
load up to 30 kg.

**SPOT LED LIGHTS**  
The light is directed  
to specific  
points or areas.  
Spot LED lights are  
used as additional  
lighting or as a decorative element.  
Colors: white,  
chrome, black.

**AVENTOS**  
lifting systems  
allow optimal use  
of space, for  
example above  
refrigerators.  
Compact lifting  
mechanism for  
easy and  
convenient use.

**HINGES**  
The cabinet door  
closes quietly because of the "soft close" hinge function. Soft Close adapts to the dynamics - it closes smoothly, regardless of size, weight, or force applied.

**PULL-OUT  
BASCET**  
a convenient solution for storing clothes, shoes and other items. Easy to pull out thanks to the lowered front. Capacity up to 15 kg. Colors: white, gray.

**LED LIGHTING**  
helps to create a cozy and modern kitchen interior. The best solution for lighting the kitchen worktop, highlighting and illuminating certain parts of the kitchen.

**HIGH PULL-OUT  
ORGANISER  
CARGO**  
very capacious and convenient product storage solution. Capacity up to 100 kg. Colors: white, chrome.

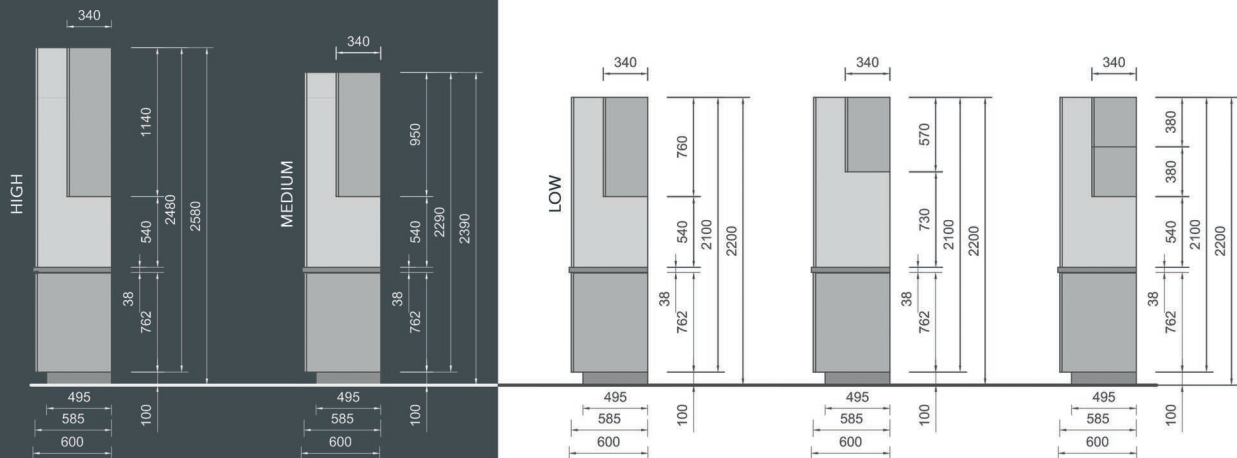

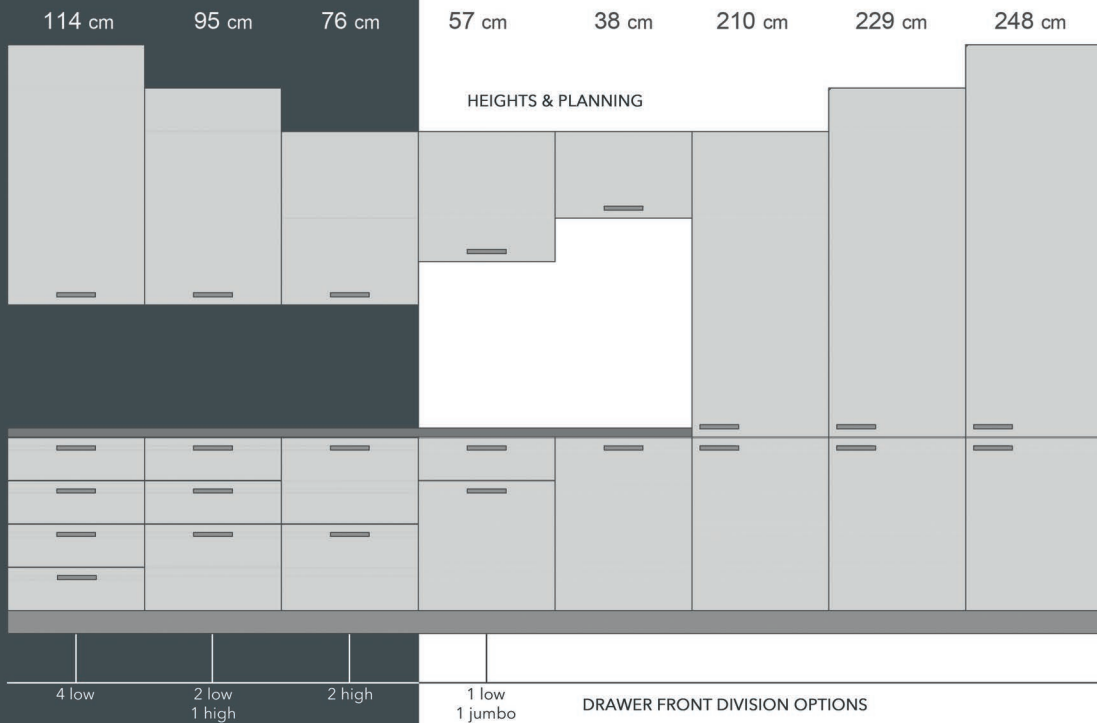

**A MODULAR  
GARBAGE  
SORTING SYSTEM**  
is an excellent solution for waste sorting. It can be washed in the dishwasher. Suitable for drawers 450-500 mm deep. The set includes a tray, color: dark gray.

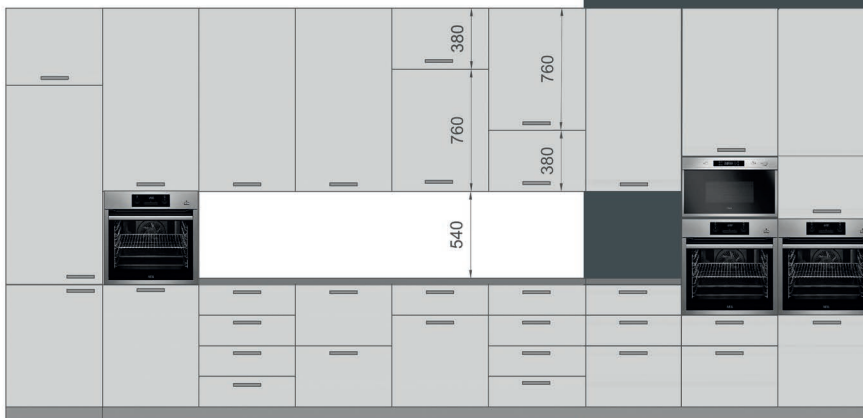

## ACCESSORIES

Modern kitchen accessories are made of high-quality materials, so they are very durable and withstand intensive daily use. Properly selected kitchen accessories, mechanisms, and accessories ensure functionality and ergonomics.

# MANUFACTURING

## • CAPACITIES

We can produce 8000 kitchens every year. We are capable of implementing projects that require exceptional solutions. Project planning, execution, quality control, and the most optimal solutions are ensured in every process.

## • MATERIALS

In production, we use laminated chipboards (LMDP), painted MDF panels, solid wood, glued plywood, natural veneer, HPL, CPL high-pressure laminates, cork materials, and linoleum.

## • DIFFERENT FINISHES

The products can be lacquered, varnished, stained, or painted. Seeking to create the desired result, we work with different paint types and varnishes: water-based, matte, and glossy.

## • WARRANTY

We offer a production guarantee for every order. We keep all product information data on our database, which allows us to make furniture that matches the original order or replace parts accurately and swiftly during the warranty and post-warranty period, as needed.

## • ASSEMBLY AND INSTALLATION

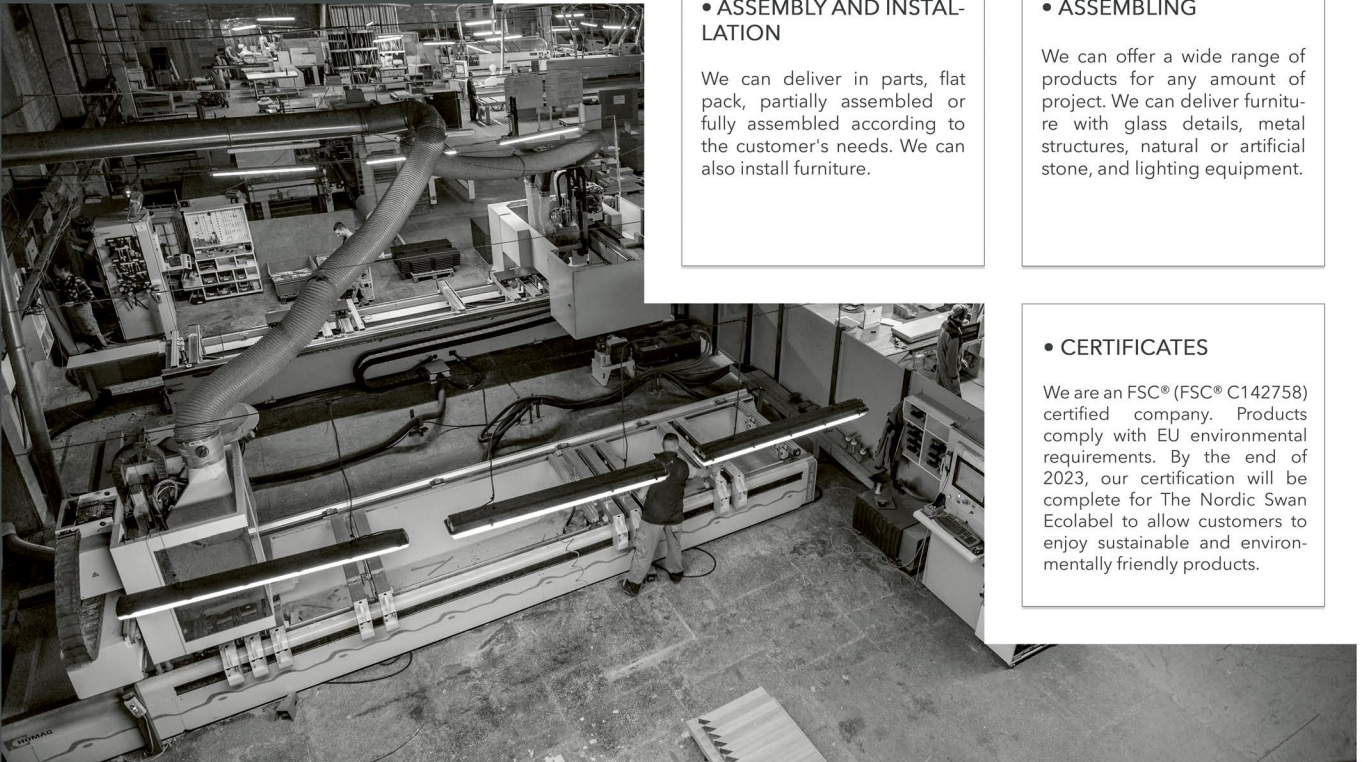

We can deliver in parts, flat pack, partially assembled or fully assembled according to the customer's needs. We can also install furniture.

## • ASSEMBLING

We can offer a wide range of products for any amount of project. We can deliver furniture with glass details, metal structures, natural or artificial stone, and lighting equipment.

## • CERTIFICATES

We are an FSC® (FSC® C142758) certified company. Products comply with EU environmental requirements. By the end of 2023, our certification will be complete for The Nordic Swan Ecolabel to allow customers to enjoy sustainable and environmentally friendly products.

# PROCESSES

The main priorities of the company: seeking the best quality of manufactured products, the pursuit of improvement, and the use of new technologies help to ensure customer satisfaction and trust.

Parts production

Surface preparation

Storage and Shipping

Assembly and packaging
